

Monthly Communicable Disease Report

June 2025

Figure 1: Case Counts/10,000 population of the 4 Major Communicable Diseases and their average Incidence (per 10,000 population) by Atolls – May 2025

٢٠٢٥ - ٢٠٢٦
 ١٠٠٠٠/٢٠٢٥ - ٢٠٢٦

 The average incidence rate, that is the number of new cases reported by atolls in the same month of the previous year's, in proportion to every 10,000 populations. Average incidence rate is calculated, (Average incidence = Average of new cases per month of previous years / Population of the atolls x 10,000).
